## Water Power Question Before Dominion House

### Canada is Entitled to Eighty Per Cent. of Water Going Over Niagara Falls—Treaty Defining Rights Will be Sought

Edmonton Special.  
Ottawa, Jan. 14.—In the Dominion House today Mr. Lancaster called the government's attention to the proposed arrangements by the international waterways commission on regard to the apportionment of the Niagara Falls and river. The commission recommended that the supply of water for domestic use should be limited to 25,000 cubic feet per second on the American side and 50,000 cubic feet on the Canadian side. Dr. Spencer's report was that Canada was entitled to nine-sixteenths of the quantity of water passing over the falls, but he thought Canada was entitled to at least 70 or 80 per cent. and that the United States was only entitled to at the most 20 or 25 per cent. instead of seven-eighths. The waterways commission dealt with the matter without consideration as to the location of the boundary. Therefore he moved that Dr. Spencer's report be completed without delay so that the real facts might be known. He moved for the correspondence and said that if Canada was not careful it would have another Alaska business on its hands. If Dr. Spencer were correct Canada would lose 1,800,000 horse power.

Sir Wilfrid Laurier said that the recommendations made by the international waterways commission that the amount of water should be limited by treaty between Canada and the United States was an eminently wise one. As to the apportionment, he would not express an opinion but he recommended to the House that the commission could not make any permanent settlement. He was strongly of the opinion that neither by the commission or other way Canada should settle with the United States the division of waters from Puget Sound to the St. John's river. Mr. Lennox introduced in the House today his bill of last session to prevent judges of provincial courts doing any extra work and Mr. Kennedy, of New Westminster, introduced a bill to amend the Railway Act so that parties could not suffer damages caused by sparks from locomotives for any property destroyed. The act now

confers this to crops, line fence buildings and their contents.  
Mr. R. L. Borden said that he had a complaint from four Canadian sailors who were seized in a small boat belonging to the Alice Gertrude and thrown into prison at Montserrat. Hon. Mr. Brodeur replied that these men had been released. The government had taken the matter up with the British authorities with the result that the men were set free.

Mr. Schaffner inquired if any swamp lands or other lands adjacent to Lake Manitoba had been leased to any person or persons during the last 18 months for sporting or other purposes?

Mr. Oliver—"No."

Mr. Patterson said the amount of coal from Canadian mines brought to the port of Montreal in British vessels was 401,02 tons and in foreign vessels 1,085,000 tons.  
In reply to Mr. Martin (P.E.I.), Hon. Mr. Emmerson said the department of railways proposed to use motor cars in connection with the P. E. I. railway. They would be first tested on the I. C. R. branches. He expected that by the use of these cars a saving of 50 per cent. would be effected.

In reply to Martin Hon. Mr. Fisher said that very satisfactory progress was being made by the department of railways brought up from the experimental farm at Napan, N.S. and now taking the open air cure.

Mr. Ames was informed that the total cost to the government in connection with the purchase of the G. T. P. survey cost of Winnipeg was \$32,794. No further payments were to be made and no further surveys purchased.  
Col. Worthington, of St. John's, moved for a return in regard to the efficiency of the Ross rifle. What the people would like to know was whether the Ross rifle was as good as could be obtained. The price was high. Although the arm had been placed in the hands of marksmen none of them was unenthusiastic over them. It had many drawbacks, including inaccuracy at long range. The Ross rifle was inferior to the Winchester rifle, of the United States, although it cost a third more.

## SAMUEL GOMPERS WANTS PEACE

### American Federation of Labor Adopts Resolution Calling for Universal Arbitration

Bulletin Special.  
London, Jan. 14.—A move for a general arbitration treaty, a periodic world assembly, impartial investigation of all difficulties before hostilities are engaged by nations, and the immunity of private property at sea in time of war, was initiated by Samuel Gompers, president of the American Federation of Labor, yesterday. A resolution was adopted by the Federation recently to be submitted to all branches of the organization with an urgent request to secure from the local congressmen an immediate expression as to their sympathy with this movement. "The trade union movement from its inception," declared President Gompers, "has been opposed to war, its brutal fighting upon the working people. While it may not be practical to ask the immediate disarmament of all countries, the time demands that the extraordinary increase in armed naval and military forces be restricted."

## NAPINKA ROUNDHOUSE ENTIRELY DESTROYED

### Mysterious Fire Breaks Out While Men are Absent—Locomotive Rendered Useless

Bulletin Special.  
Napinka, Man., Jan. 14.—The C. P. R. a handsome new engine car was entirely destroyed by fire today. The origin of the fire is a mystery as no one was present at the shop at the time it broke out, the men being in the blacksmith shop waiting repairs on engine No. 543, which was totally destroyed. Several attempts were made to draw the locomotive out but the dense smoke and flames made it impossible to couple on to it. The shops here are important as this is a divisional point and their loss will greatly inconvenience the C. P. R. in sheltering their locomotives. No water was available to fight it, the supply being within the burning building.

## COAL MINE HORROR.

### Seven Dead and Three Injured in Indiana Pit—Powder Explosion

Clinton, Ind., Jan. 14.—Seven dead and three injured, victims of an explosion, were taken from mine No. 7 here today. The search for the dead continues but it is thought that all have been taken out. There were two hundred miners at work in the mine when the explosion occurred. It is believed that a spark from a lamp set fire to a keg of powder and that the explosion sent fire to the gases in the shaft. For several hours it was impossible to enter the shaft owing to the heat. The men had been blown down and the air could not circulate at the entrance. The bodies of the dead men were badly burned and disfigured.

The retirement of the hardware team from the city league reduces the association to six clubs in each group.

## INTERIOR DEPARTMENT INVESTIGATES

### Reports From All Points in the West Indicate Deep Snow and Little Freight Moving

Bulletin Special.  
Ottawa, Jan. 15.—Owing to exaggerated reports as to weather and fuel conditions in the west, the interior department communicated with land agents in Manitoba, Saskatchewan and Alberta regarding weather, fuel and stock and grain prices. Replies were received from sixty points. From all points there comes reports of snow, two and three feet in Manitoba, Saskatchewan and northern Alberta. Six to eighteen inches in the ranch country of southwestern Alberta and prairie service Manitoba. Passenger train service Manitoba and Saskatchewan is being delayed, and freight service badly demoralized. The only service complaint as to train service in Alberta is from Stettin, a small town in the south of the province. The situation is generally one of grain scarcity in the west and the financial situation is very serious in many cases causing more adverse comment than the fuel situation.

Ottawa, Jan. 15.—Consul-General at Tokyo today announced that the Japanese training squadron would not visit the Pacific coast this year as originally intended, owing to the condition of affairs in China.

## DERANGED WOMAN ATTACKS HER CHILDREN.

Woodstock, Ont., Jan. 14.—Mrs. Elmitra Bates, a washerwoman of this town, was sent up for trial today on a charge of assaulting with intent to kill. It is alleged that on Sunday morning she attacked her two children, Hattie, aged 12, and William, aged 13, with an axe. Both the children appeared in the police court with their heads lacerated. Mrs. Bates was charged with the assault and the bed injured herself, and that the boy was injured. It is thought Mrs. Bates committed the assault while temporarily deranged.

## MACRI HANGED IN WINNIPEG

### Died Protesting Innocence and With Prayer on His Lips—Body Given to Relatives

Bulletin Special.  
Winnipeg, Jan. 15.—Nineteen years ago, when his fellow countryman, Macri, was hanged at the gallows in this city, was hanged at 9 o'clock this morning. His body was broken and his heart could not bear the strain of the execution. The body was taken down and given to relatives who will look after the burial. Macri died protesting innocence and with a prayer on his lips. He was attended at the scaffold by three priests, who had tried to keep his last moments sane. The body was taken down and given to relatives who will look after the burial. Macri died protesting innocence and with a prayer on his lips. He was attended at the scaffold by three priests, who had tried to keep his last moments sane. The body was taken down and given to relatives who will look after the burial.

## FIRE HYDRANTS WERE FROZEN

### Calgary Firemen Handicapped by Lack of Water But Work is Saved

Bulletin Special.  
Calgary, Jan. 14.—There was a fire in a section of the Allan Block last night, and the entire block, and perhaps the post office and crown court, was in danger. The fire was caused by a gas leak from the city and it was the flames due to the good work of the fire brigade.  
Shortly after nine o'clock last night, a store in the basement under the store occupied by McMillan and Macdonald, and a gas leak from the city and it was the flames due to the good work of the fire brigade.  
The firemen could not get water, they were near hydrants, but every one in the vicinity was frozen up. They tried one hydrant after another, but in every case the water was frozen. The fire was caused by a gas leak from the city and it was the flames due to the good work of the fire brigade.  
The firemen could not get water, they were near hydrants, but every one in the vicinity was frozen up. They tried one hydrant after another, but in every case the water was frozen. The fire was caused by a gas leak from the city and it was the flames due to the good work of the fire brigade.

## RICH GALENA IN SALMO CAMP

### Phenomenal Strikes of Silver-Led on in the Kootenay Country— Mining Picking Up

Bulletin Special.  
Nelson, Jan. 14.—Strikes of phenomenal rich silver-lead ore have been made upon the Nugget and summit of the Salmo camp. Both mines are shipping samples to the Hall Mines smelter which are said to be the richest that have arrived in many years. Manager De Witt, of the Ore Hill, Salmo, declares that camp now says that eight or ten cars are to be found loading on the siding every day. The Kootenay Belle is working a force of ten men or more in gold ore. The Queen is running regularly and the mill is now making a better concentrate than it has succeeded in doing lately. The Journal is working over three cars a week and could do more if the smelter were ready to receive it which will be in a short time.

## MARINE MAIL SERVICE FOR PARCEL POST

### Mr. Lamieux Prepares to Put Clerks on Ships to Sort Packages En Route

Bulletin Special.  
Ottawa, Jan. 14.—Hon. Rudolph Lettice has devised a plan for expediting the delivery of parcels coming from Great Britain. In the past and especially at Christmas and New Year's, when parcels from the old country are very numerous, great congestion has taken place at the Canadian custom and consequently they have been delayed in packages reaching their destination. Mr. Lamieux proposes to place a mail clerk who will be in the power of a customs officer on the westbound steamers carrying Canadian mails, whose duty it will be to sort, save for duty, and route parcels, so that on arrival they may be forwarded promptly to their destinations. This will be a great advantage to the Canadian public, who frequently have been exasperated by vexatious delays.

## VERDICT UPHELD.

Bulletin Special.  
Calgary, Jan. 14.—At the court house on Saturday, court on banc upheld the verdict of the trial judge in the case of the fire in the Allan Block. The verdict was upheld on the ground that the fire was caused by a gas leak from the city and it was the flames due to the good work of the fire brigade.

## Chisholm Block Destroyed by Fire

### Firemen Make Heroic But Futile Effort to Save Building—Brigade Has Terrible Night Fire and Frost

The most disastrous fire in the history of the city occurred last night by which the Chisholm block, on the corner of Taylor and Fourth street, was totally destroyed. The outer walls alone are standing. The floors, cross walls and roof have fallen in. The fire is still smoldering in the mass of debris precipitated into the basement. The firemen made a brave but futile struggle, which was rendered all the more difficult by the intensely cold weather. Several firemen have suffered from frost. The flames were kept confined to the building.

The Chisholm block was one of the first brick structures erected in the city. It was occupied by Williamson & Co., produce merchants, and by O. Carver, wholesale fruit merchant. The second and third floors were occupied by several suits of living rooms and afforded accommodation to some forty residents. Very little of the furniture or household effects of the residents was saved, and several have lost their entire wardrobes and furniture. Mr. Chisholm, the owner of the block, lost all his papers. Mr. Brown succeeded in rescuing his office desk.

The loss on the building is \$90,000, covered by \$1,000 insurance. Mr. Williamson value the stock at \$800 covered by \$2,500 insurance. Mr. O. Carver's stock is valued at \$7,000 covered by \$3,500 insurance. The loss of the residents cannot be computed. Mr. McPherson, manager of the Journal, lost all his household effects. Mr. Kelly and Mr. Goshmidt, of the Hudson Bay Co., are also heavy losers. Mr. Johnson and E. G. Stevenson lived in the block and have lost everything.

The cause of the fire is unknown. The alarm was given about 11 o'clock. The caretaker, Geo. Gerard, was in his room in the basement when he heard the crackling of burning wood in the adjoining walls in the basement. He ran upstairs and called "fire." Mr. Tait, manager for Williamson Bros., and Mr. Tait, the photographer, were the first thought they could extinguish the fire, but at once sent in the alarm. Meanwhile the occupants of the upper flats were aroused. By the time the fire brigade arrived the basement was a seething mass. It contained a quantity of boxes, paper bags, large quantities of produce, and a large quantity of goods, which were being packed for export. The fire was confined to the basement and was up to the ceiling. It was thought to be controllable. Fire streams were immediately sent into the basement, but he men were unable to reach the fire and came up. A hole was broken through the cellar ceiling and the nozzle inserted, but the piles of boxes prevented any effective work being done by the revolving nozzle. About 12 o'clock the fire had worked its way to the rear of the basement, but the men were unable to reach the fire and came up. A hole was broken through the cellar ceiling and the nozzle inserted, but the piles of boxes prevented any effective work being done by the revolving nozzle.

After examination and exposure, was forced to take a respite and change his clothes, which were soon encumbered with ice that they had to be cut off.

About 2 o'clock the ceilings and roof began to fall in, and final hope of saving anything of the furniture and belongings of the occupants was abandoned. The flames and residents of the building were so confident that the fire would be controlled that no effort was permitted to move the furniture. A few trunks were taken down the ladder from the front window.

The ranks of the brigade were filled by volunteers. The firemen worked for 12 hours before cutting off the water. When the citizens came down town in the morning the firemen were playing the same grim and hopeless game they were at when the crowd dispersed last night. Clouds of steam and smoke were ascending from the ruins. One volunteer was standing with the nozzle directing a stream into a window on the west side with his clothes frozen. The telephone pole beside him, and his feet encased in immense masses of ice which he could hardly drag.

The water pressure was well maintained throughout the night until early in the morning, when it began to diminish and by the time the brigade returned to the fire hall, was less than 8 pounds.

An auxiliary brigade was sent about 9 o'clock to keep the fire from spreading beyond the limits of the ruined building.

The managers of the Cecil hotel supplied the firemen with coffee and sandwiches throughout the night. The police who were kept controlling the crowd, suffered considerably from the cold.

## CALGARY LIBERALS ELECT OFFICERS

### City Council Takes Steps to Secure Municipal Telephone System

Bulletin Special.  
Calgary, Jan. 15.—At the annual meeting of the Calgary Liberal Association, the following officers were elected: President, H. W. Cushing, E. M. R. to them. It was the best of them which a few days ago, started the agitation for the municipal telephone system.

Initial steps were taken towards installation of a municipal telephone system.  
The meeting of the board of trade will be held when Mr. Scott, one of the inspectors of the Bell Telephone Company, will present the case of the Bell Co. to them. It was the best of them which a few days ago, started the agitation for the municipal telephone system.

## WINNIPEG FLYER DERAILLED.

Locomotive and Every Car Leaves the Rails But No One is Injured.  
St. Paul, Minn., Jan. 14.—The Winnipeg flyer on the G. N. was derailed today near St. Paul, Minn., by a fallen plank on a cattle guard. All the cars left the rails but the passengers and train crew escaped serious injury.

## Telegraphic Brickyard for the Hat

Medicine Hat, Jan. 14.—Medicine Hat is to have at least one new brickyard in the spring, a local owner having purchased 10 acres of clay land on George Markwick's property. The price paid was \$2500.

## MINING EXCITEMENT IN CAPE BRETON.

### Believe They Have Struck Another Klondike on the Island—Stam- ped for Claims

Bulletin Special.  
Halifax, Cape Breton, Jan. 14.—The discovery of a gold district said to be as rich as the Klondike is causing people here to anticipate a rush to this section of the country. Already upwards of one thousand claims have been filed. One which assays thousands of dollars to the ton has been taken from the Waganatook region. This, however, is unusual and a great deal of the ore is of much inferior quality.

## MR. ROBILIN'S MAP

The Winnipeg Telegram reproduces a sketch map of Manitoba supposed to illustrate the result of the vote on Premier Roblin's telephone policy. The fifty-five municipalities which divided the province are duly demarcated and labelled; as many as possible of the sixty-eight municipalities which rejected the proposal are surrounded out of existence; none of the remainder are demarcated or labelled and the unorganized territory of the eastern and northern parts of the province is unceremoniously chopped off. The general effect of the manipulation is to exaggerate the measure at the expense of the remainder of the province. Even with this friendly aid at the map-maker the supporting municipalities look remarkably like a handful of badly arranged postage stamps decorating a blank wall. A heavy black line meandering about the premises and supposed to represent the telephone system line, as a representation of the "Result of the Telephone Plebiscite" is a fraud; as a chart of Premier Roblin's intended telephone system it is probably correct; for that gentleman has made it sufficiently clear that the supporting fifty-five municipalities will get what they want; that the opposing sixty-eight are likely to get what they do not want and that whether or not the service is wanted will have no bearing as to whether or not it must be paid for.

## MUNICIPAL HOSPITALS

Among the resolutions adopted by the municipal delegates at the Red Deer convention was one to the effect that public hospitals should be built and maintained by the municipalities, instead of being left mainly dependent on charity as at present. Though of comparatively recent discussion locally the proposal is not in reality a new one and at least one Alberta town has adopted this policy. The neighboring town of Strathcona has owned and managed the public hospital for some months and the results are understood to be generally satisfactory that the institution may be considered as among the permanent undertakings of the town across the river. In accord with the resolution adopted by the convention it is probable that other cities, towns and villages will adopt the same course and the municipal ownership and operation of hospitals become an early date the rule rather than the exception in Alberta.

There are many very excellent and very generally understood reasons why the hospitals should be removed from the uncertainties of dependence on public charity and placed on a solid foundation as public undertakings. "Hospitals" and "hospitals" making institutions. On the contrary, they are generally operated as a loss and the more a hospital undertakes to fulfill its mission of providing an asylum in sickness for those least able to provide for themselves, the more likely it is to show a deficit at the end of the year. It is not surprising, however, that the municipalities of a hospital are large enough to provide for an efficient service and make up a deficit. In consequence the hospital very frequently is hampered in its operations by lack of room, poor buildings and insufficient equipment. Yet efficiency should be the first and primary consideration of such institution. No hospital accommodation is a calamity to a community, but a hospital starved into inefficiency is a question of the betterment.

It is reasonable to suppose that the accommodation demanded from a municipal hospital will be greater than that required of an institution supported by voluntary contributions under similar circumstances. A very large number of people feel something of a repugnance to accepting treatment from a "charitable" institution, even though they are both willing and able to pay for the services and even though they may be liberal contributors toward its maintenance. But there is no more reason for an aversion to being treated in an hospital maintained by the municipality than to taking water from the municipal waterworks system. Moreover, the unfortunate citizen, who, uncertain as to whether or not he would be eligible to pay for hospital attendance now suffers at home under circumstances perhaps not well qualified to restore his health, would feel far less reluctance about accepting treatment in an hospital toward the maintenance of which he contributes through the tax bill according to his means. For these reasons the patronage of a municipal hospital should be larger than that of one supported by private donations. This is only another way of saying that the municipal hospital would be called upon to supply the needs of the people, and in undertaking the maintenance of such institutions the public should realize the probability of such increased demand.

Another problem connected with the municipal hospital is one which the municipality cannot well solve. As hospital ministers to the needs not only of the city or town in which it is located, but of the district of which this is the center. It would be scarcely fair that the residents of the city or town should be called on to finance in large measure the cost of treating patients from outside points who were unable to pay for their own treatment. To meet this it would probably be necessary to secure legislation making rural municipalities liable for such charges, unless the province at large were willing to undertake the liability of receiving all municipal hospitals in the province for expense incurred in this way.

## RECIPROCAL DEMURRAGE

The Globe.—The Montreal Corn Exchange at a meeting today protested against the blockade at railway terminals and passed the following resolution:—  
"Resolved that the great loss and inconvenience suffered by the trade from the failure of the railways to supply cars when required, and from the intolerable delays which have occurred in transshipping and discharging the cars into the elevators after their arrival at terminal points, demand adequate compensation; that the committee of Management of the Corn Exchange Association be hereby requested to associate itself with other commercial organizations interested in maintaining in force the demand for adequate compensation; that the committee of Management of the Corn Exchange Association be requested to make a report on the charges shall be returned, so that compensation shall have the equal right with the railways of collecting demurrage (1) when cars are not promptly supplied, (2) when there is any undue delay in transshipping or in placing cars for delivery on arrival in the freight yards, and (3) in cases of undue delay in storing in elevators at stations where elevators are operated."  
The congestion of freight is very great and constitutes a real menace to commercial progress.

# CALGARY WANTS MUNICIPAL PHONES

Resolution Will Come Before First Meeting of New Council To-Night

Calgary, Alta., Jan. 18.—The first meeting of the Calgary city council will be held tonight when matters of great importance will come up for consideration. A motion will be introduced asking the city to begin the installation of a municipal telephone system. The motion which was only made last night, is believed to have been made by Mr. J. H. McCall, who is an alderman. It is believed that the city of Calgary will be the first in the province to have a municipal telephone system. The city of Calgary is now in a position to have a municipal telephone system. The city of Calgary is now in a position to have a municipal telephone system. The city of Calgary is now in a position to have a municipal telephone system.

# ROSTHORN MURDER STILL A MYSTERY

Police No Hearer Solution Than When They Commenced Galician Detective Wanted

Calgary, Alta., Jan. 18.—Although it is now ten days since Mrs. Rosthorn was murdered on the street here, there are as yet no clues. A solution of the mystery that has been made by the police is not to be expected. The police are now in a position to have a municipal telephone system. ### STRATHCONA HAD HARDLY A LOOK IN

Edmonton Wins First Cup Game  
8-1—Visitors Outclassed in Every Department

On fast ice and before an enthusiastic crowd the Edmonton senior hockey team last night turned down Strathcona by a score of 8-1, the half-time score being 4-0.

It was the first game in the Fellers Cup series, and Strathcona's showing was a disappointment. With the exception of the first twenty minutes in the first half the game was just about outclassed. In the first half the game was fairly even, though by no means was senior quality of hockey displayed, but Edmonton had it on the score all round—end, condition, shoving ability and knowledge of the game.

Edmonton forwards played their position better and occasionally worked in a small amount of combination play. The visitors' defence was quite easily done away with. The Edmonton 1-0 of goal prevented action to their position like long as long as there was any danger. Edmonton was not alone, and Captain Raitt couldn't get them up, consequently when Edmonton came down with the puck they usually had only Elliott and Hamilton to deal with.

Hampson showed all three goals in the first half. McLean showed he was entitled to play, and was certainly a good player, but he was not as good as he was in the first half. McLean showed he was not as good as he was in the first half. McLean showed he was not as good as he was in the first half.

On the night, the form of Edmonton looked back against the Edmonton team. The game was played on the night. The game was played on the night. The game was played on the night.

## Notes on the Game

There was a famous victory. Edmonton checked the clock out. In the matter of weight, honors were about even. Strathcona's strong defence was a false alarm. There wasn't a weak spot on the winners' lineup. There's just a few real heads in the Strathcona seven. Raitt is a likely looking cover point if he could only get up steam. There was no discount on Campbell's. He was there with the game all right. On last night's form Lachance has no license to swamp the hosts Thursday night. McLean was not a McLean. McLean was in his place, found the journey too long. The game was in starting, but it was Edmonton's fault. Their team did not reach the rink until after 8:30. R. Blomfield entertained the crowd with a exhibition of one-legged backslapping while Blomfield was fixing up his skate. Strathcona will make a better showing on their own ice, remarked one of the boys' supporters. They certainly should.

## LAST YEAR'S CONTEST FOR PEDERSEN CUP

Edmonton Hopelessly Beaten in Opening Contest Lands Next Three and also the Trophy

This is the fourth year the Pedersen Cup has figured in the history of hockey in Edmonton and Strathcona. The contest was dominated by Jim Hume in 1934. The donor was running an open-air rink on the river. The new, and three-fold game regulations governing the competition for it, made the cup a good business proposition for the giver.

Edmonton, successfully defended the trophy in 1934 and also in 1935 but in the second year the trophy was won by Strathcona. Four contests were necessary to land the prize. Strathcona winning the opening game and Edmonton getting away with the next three. Edmonton team for the cup's history was: Grady, goal; Blomfield, point; Lane, cover point; Powers, cover point; Hume, left wing; Debor and Johnson, wings.
